GitHub: <https://github.com/Kareem-Basem/Examor-platform>

GTA: Vice City – KeMoO Edition

- Enhanced game graphics, redesigned vehicle models, and updated sound effects.
- Improved game mechanics and engine to enhance user experience.

- Created detailed README files in Arabic and English to guide users.

GitHub: <https://github.com/Kareem-Basem/GTA-Vice-City-KeMoO-Edition>

GTA: San Andreas – KeMoO Edition

- Enhanced the overall graphics quality, focusing on modernizing textures and improving lighting effects.
- Improved in-game mechanics, including character controls and mission dynamics, for a smoother gameplay experience.
- Developed a comprehensive README guide for users to install and enjoy the modified version seamlessly.

GitHub: <https://github.com/Kareem-Basem/GTA-San-Andreas-KeMoO-Edition>

B.Tech Customer & Sales Management System

- Collaborated with a team of four members to design and implement a Microsoft Access database for managing customer records, sales, purchases, and invoices.
- Structured database tables and established relationships to ensure efficient data organization.
- Developed interactive forms for seamless data entry and management.
- Designed reports to track sales performance and customer activity.
- Ensured data accuracy and consistency through validation rules and relational integrity.

Training & Development

CIB – Online Training Program

August 11 – August 27, 2025

- Completed intensive online training with certifications in:
 - Responsible Innovation and Trustworthy AI (SAS)
 - Customer Centricity (Udemy)
 - Sustainability Foundations: Core Concepts (LinkedIn Learning)
